Submission #
Date received:

Complete each applicable section as it relates to your project.

08.27.15

D-1: Project Description
Project Name (if applicable):
Municipality:
Project Location (address):
Nearest Major Intersection:
Check those that apply: <input type="checkbox"/> Docks and Boathouses < 15 square metres in area (Small Works) <input type="checkbox"/> Docks and Boathouses > 15 square metres in area (Standard Works) <input type="checkbox"/> Shoreline Alteration/Erosion Protection Works < 50 metres in length (Small Works) <input type="checkbox"/> Shoreline Alteration/Erosion Protection Works 51 to 500 metres in length (Standard Works) <input type="checkbox"/> Shoreline Alteration/Erosion Protection Works > 500 metres in length (Major Works) <input type="checkbox"/> Channel/Lake Bed Alteration < 200 metres in length or 0.5 ha in area (Standard Works) <input type="checkbox"/> Channel/Lake Bed Alteration > 200 metres in length or 0.5 ha in area (Large Works)

D-2: Docks and Boathouses
Type of Construction: <input type="checkbox"/> New Installation <input type="checkbox"/> Re-construction <input type="checkbox"/> Addition
<input type="checkbox"/> Boat House - complete this section to describe in water support structures – complete <i>Schedule B: Construction, Re-construction and Addition</i> to provide building construction details. <input type="checkbox"/> Dock – temporary docks do not require a permit (e.g. roll out, floating, etc.)
Number of cribs/structural supports required:
Approximate total area of lake/stream bed to be occupied by cribs/supports (m ²):
Proposed dimensions of each structure:
Length (m): Width (m): Height (m):

D-3: Shoreline/Watercourse or Lake Bed Alteration
Alteration: <input type="checkbox"/> Retaining Wall <input type="checkbox"/> Boat Ramp <input type="checkbox"/> Other – describe:
<input type="checkbox"/> New Installation <input type="checkbox"/> Repair/Maintenance <input type="checkbox"/> Re-Construction/Modification
Proposed dimensions of each element/structure (if applicable):
Length (m): Width (m): Height (m):
Proposed dimensions of dredged area (if applicable):
Length (m): Width (m): Depth (m):
Proposed dimensions of Boat Ramp (if applicable): Length (m): Width (m):
Approx. Volume and type of Fill Material (m ³):

D-4 Erosion Protection Works		
<input type="checkbox"/> New Installation <input type="checkbox"/> Repair/Maintenance <input type="checkbox"/> Re-Construction/Modification		
Area and Depth of Erosion Protection Measures:		
Length (m):	Width (m):	Depth (m):
Approx. Volume and type of Fill Material (m³):		
Final Slope/Grade (if applicable):		

D-5 General Project Information	
Existing Site Conditions or Use:	
Proposed Site Conditions or Use:	
Description of construction methods and equipment used:	
Description of proposed materials used (i.e. concrete, wood type, rock type and sources):	
Elevation of proposed works (m):	Metres above High Water Mark:
Sediment/erosion control plan (e.g. silt fencing, turbidity curtain - indicate locations on attached site plans):	
Proposed Start Date:	Anticipated Date of Completion:
Additional Details or Information:	

Complete Application Requirements

This schedule must be accompanied by detailed drawings for the proposed works. This includes a site plan and cross sectional drawing of the proposed works showing dimensions and placement relative to shorelines and watercourses.

A work permit from the Ministry of Natural Resources and Forestry may be required for in water work under the Public Lands Act and/or the Lakes and Rivers Improvement Act. In water work is subject to timing windows under the Fisheries Act and may require review from the Department of Fisheries and Oceans.
