

2017 PRIVATE LANDOWNER'S TREE SEEDLING ASSISTANCE PROGRAM

TREE SEEDLING PICK-UP DAY: Wednesday, May 17th, 2017 at Hill's Greenhouses

WHY PLANT TREES?

Reforestation improves our environment by providing wildlife habitat, preventing erosion, conserving energy and improving air quality. In addition, when you plant trees, you improve aesthetics and the value of your property. Since inception of the Tree Seedling Program in 2009, there has been an incredible 126,249 trees planted in the Lakehead Region Conservation Authority (LRCA) watershed.

ABOUT THE SEEDLINGS

Seedling stock is locally grown by Hill's Greenhouses Ltd. in Murillo, Ontario. Seeds collected from this region ensure that the trees are adapted to local conditions. One year old seedlings will range in size from 4-8 inches (10-20 cm) and two year old seedlings will range in size from 8-16 inches (20-40 cm) depending on the species. One year old trees are container stock and two year old seedlings have been hand transplanted.

ABOUT THE PRICE FOR 2017

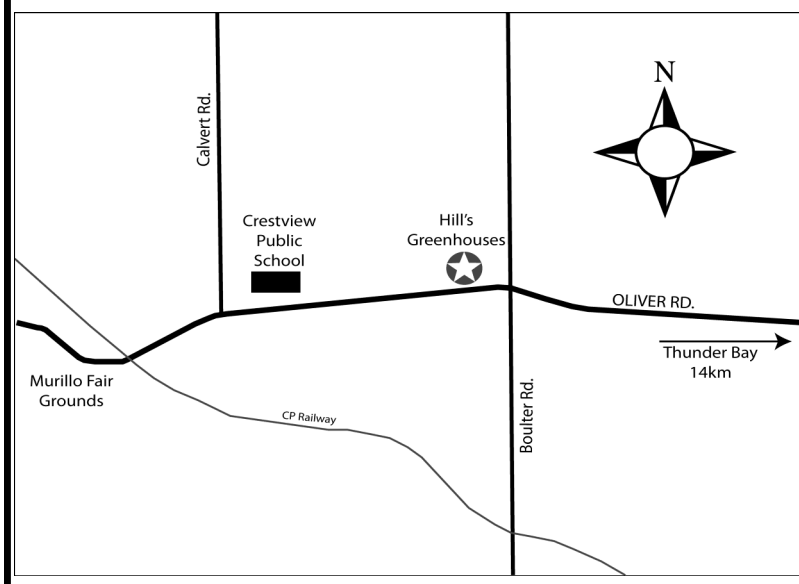

In support of private land stewardship efforts, the LRCA is able to offer conifer tree seedling stock at a subsidized price through Hill's Greenhouses Ltd. ***The LRCA does not profit from the sale of tree seedlings.***
